PACRA Maintains Stability Rating to NIT Government Treasury Fund

The Pakistan Credit Rating Agency (PACRA) has maintained the stability rating at 'AA+ (f)' (Double A plus ; fund rating) of NIT Government Treasury Fund (NIT-GTF), an open-end money market fund. The fund's rating denotes a very strong capacity to manage relative stability in returns and very low exposure to risks.

The objective of the fund is to ensure a high level of portfolio liquidity, while maintaining a portfolio composition which yields returns in excess of the benchmark. The rating reflects the fund's low risk profile emanating from its policy to invest in avenues rated 'AA' and above. At end-Sep16, 80% of the fund's exposure was in Government securities and the remaining portfolio was invested as cash (i.e. 20%) with "AA+" rated avenues. In Sept-16, monthly average exposure in Government securities was 80% whereas duration was 58 days. Fund's exposure in Government securities was above 50% in past 4 months. The unit holding pattern of the fund is highly concentrated with top10 investors representing almost the entire fund, which reflects redemption risk.

Going forward, the rating remains dependent on maintaining at least 50% allocation towards government securities or AAA exposure on monthly average basis with portfolio duration not exceeding 60 days. Meanwhile, the remaining assets of the fund must be placed with investment avenues having credit ratings of 'AA' and above. PACRA would monitor compliance against pre-defined parameters on monthly average basis.
